requires minimum
tap flow rating

1.5 bar + - very high pressure
1.2 bar - high pressure
1 bar - medium high pressure
0.5 bar - standard pressure
0.2 bar - low pressure

Carron Phoenix rate this Kitchen Tap as requiring standard water pressure (0.5 bar and above).
In our technical opinion we would advise a minimum of 0.8 bar water pressure for this tap i.e. a medium high water pressure rating.
